Pulse Systems
222 Bolivar Street
Canton, MA 02021

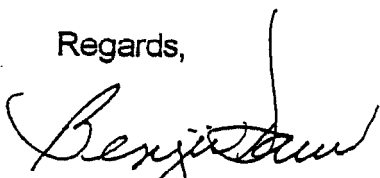

John,

On behalf on Metric Systems Corporation, I would like to formally thank you and your staff for a job well done on the design and manufacturing of the TWT Solid State Transmitter. As with many projects of this magnitude, there were some stumbling blocks thrown in the way. I appreciate your fortitude and "Get it done" attitude to complete this project.

The first delivery of the system has been accomplished and is functioning as expected. As you know, "as expected" is quite a high standard, given the technical requirements of this system. This is attributable to your personal contribution to the project.

John, it is a pleasure doing business with Pulse Systems, a I look forward to many other projects in the near future.

Regards,

Benjie Davis
Business Unit Manager
